Modifying/customizing our plans

Tower Designs offers custom designing services to modify planbook designs or to design custom homes. Site conditions, family size or lifestyle, budget for construction, deed restrictions and personal preferences can all be accommodated with modifications to our plans. Things, such as, garage size, window type (double hung or casement), kitchen layout, decks, sun rooms, fireplaces, ceiling heights, and room sizes are just some of the areas that can be modified.

The exterior design of any plan can also be changed to many different styles, traditional, colonial, prairie and many others. For example, the Weston illustrates a prairie style exterior and the Weston II has a more traditional exterior even though they both are the same floorplan.

To find out what it would cost to have a plan modified make a copy of the planbook page and notate the areas that you would like changed. We will review the marked up copy and send you a written estimate for converting your ideas to final construction drawings.
